Why are good math skills so important for your? Find out in our Details Choose one of the 24 tests above to check and improve your case math skills.. Did you know? Consulting companies like McKinsey sometimes demand candidates to take a multiple choice test.. Math Playground has hundreds of free, online math games that teach multiplication, fractions, addition, number sense, geometry, algebra, problem solving, and more.. Training your case math skills is a key factor to succeed in this kind of tests.. Usually it is not possible to complete all excercises of the test in the given time.

You can take a test as many times as you want and see how you improved over time.. Under your point score you can see how you performed compared to the candidates.. Do you have what it takes? Simple: Using 4 numbers, try to make the answer = 24 ----- The Fun Maths App features: ● Addictive number games to train your brain and keep you sharp ● Multi-player in real time against your friends ● Different difficulty settings to match any players skill ● Try beat your best times ● There is usually more than 1 way to solve the problem! ● Hundreds of Levels ----- WARNING, this game is highly challenging and very few people have the skills to finish the game on hard mode!What is Math Workout? Math Workout is a unique brain training game which contains several mini-activities that work towards enhancing your mental arithmetic.
